

FSA *by BASIC*

Employers know an attractive benefits package is important to entice and retain high quality job candidates. For businesses evaluating which benefits to offer, a Flexible Spending Account (FSA) plan can be a cost-effective way to provide value for both employers and employees.

An FSA is an employer-owned savings account where employees choose an annual dollar amount to contribute, on a pre-tax basis, to pay for out-of-pocket health and dependent care expenses. Any money added to their account is untaxed with a savings of 15%-40%. Additionally, by offering this benefit, employers save 7.65% (the combined Social Security and Medicare tax rate) on the value of contributions to the FSA.

1

A mature FSA plan can yield more dollars in tax savings than it costs to administer your plan.

2

FSA plans can include Medical FSA, Dependent Care FSA, Limited Purpose FSA, and Premium Only Plans (POP).

Superior Service

While BASIC harnesses the power of superior technology, we still believe in old-fashioned customer service like answering our phones. Even with our self-service features, participants often need to speak with a real person. Calling us is convenient on our toll-free direct customer service line. (Available between 9:00 a.m. – 7:00 p.m. ET Monday thru Friday)

- We reduce your HR department's burden with electronic file (EDI) feeds from a wide variety of systems.
- BASIC FSA covers all your compliance obligations, including a customized Plan Document, reimbursement eligibility and verification, Summary Plan Description (SPD), administration manual, non-discrimination testing, and IRS Form 5500 filing (if required).

 Medical FSAs got a lot more flexible in 2020 due to the CARES Act and increased eligible products. Over-the-counter (OTC) medications are once again eligible, as well as the addition of menstrual products such as tampons, pads, liners, and cups.
